PROFILE

Ambitious Full-Stack Developer and CS student skilled in **C#** / **ASP.NET** , **TypeScript**, and **React**. Experienced in designing relational schemas in **PostgreSQL** and streamlining deployment with **Docker**. Seeking to apply rigorous **problem-solving** skills to build robust, user-centric applications in a professional development team.

EDUCATION

Bachelor's Degree in Computer Science

Ain Shams University

09/2023 – 07/2027

Cairo, Egypt

- **Relevant Coursework:** Database Systems, Operating Systems, Web Development, Object-Oriented Programming (C#), and Distributed Systems.
- Consistently recognized for high-level **problem-solving** skills in algorithmic challenges and software design projects.
- **GPA:** [3.5/4.0]

EXPERIENCE

Full Stack .NET Developer

DEPI Scholarship by MCIT

11/2025 – 06/2026

Cairo, Egypt

- Trained in **ASP.NET** , **Core**, **C#**, **SQL Server**, and **Javascript**
- Built end-to-end web applications following **MVC** and **REST** principles

Front-end Developer

Microsoft Student Partner

10/2023 – 08/2024

Cairo, Egypt

- Training in **HTML**, **CSS**, and **JavaScript**
- Built **responsive** web pages and projects

PROJECTS

E-Commerce Platform (Full-Stack) | [\[Link to GitHub\]](#)

- Built a responsive e-commerce application using **React** for the frontend and **ASP.NET** Core Web API for the backend.
- Designed and optimized a relational schema in **PostgreSQL** to handle products, user orders, and shopping cart persistence.
- Implemented secure user authentication using **JWT (JSON Web Tokens)** and handled state management with React Hooks.
- **Containerized** the entire application (Frontend, Backend, and DB) using **Docker Compose** for consistent development and deployment.

Real-Time Social Media App | [\[Link to GitHub\]](#)

- Developed a social networking feature set including user profiles, post creation, and real-time interaction.
- Leveraged **Entity Framework Core** for seamless data mapping and integrated **SignalR** to enable real-time notifications and live feed updates.
- Focused on UI/UX by creating a dynamic, mobile-first interface using **TypeScript** and **CSS3**.
- Applied **Agile** principles during development, breaking down features into sprints and managing tasks via Git branching.

Microservices Task Manager | [\[Link to GitHub\]](#)

- Engineered a task management system using a **Microservices architecture** to separate user services from task processing.
- Integrated a **Redis** caching layer to reduce database load and improve response times for frequently accessed data.
- Implemented a **GitLab/GitHub Action** for basic CI/CD, automatically linting and testing code on every push.
- Solved complex **Problem Solving** challenges related to data consistency across services.

SKILLS

Front-End Development

- **Languages:** JavaScript (ES6+), **TypeScript**.
- **Frameworks/Libraries:** **React.js**, Hooks, Context API.
- **Styling & UI:** HTML5, CSS3, Responsive Design.

Back-End Development

- **Frameworks:** **ASP.NET**  **Core**, Web API.
- **Languages:** C#.
- **Databases:** **PostgreSQL**, Entity Framework Core (EF Core).
- **Architecture:** RESTful APIs, MVC Pattern.

Other (Tools & Methodologies)

- **DevOps & Infrastructure:** **Docker**, Containerization basics.
- **Version Control:** **Git**, GitHub/GitLab (Branching, Pull Requests).
- **Methodologies:** **Agile/Scrum** fundamentals, SDLC.
- **Soft Skills:** Analytical **Problem Solving**, Team Collaboration, Technical Documentation, Adaptability.
